“Innovative Solutions To Material Handling”

StealthZone™

24 VOLT DC CONVEYOR SYSTEMS

TRUE NON-CONTACT ACCUMULATION

- Products never touch
- Zone rollers stop during accumulation
- No clutches, air bladders, air cylinders
- Handles empty boxes with ease
- Great for fragile products
- Product can accumulate in curves

MODULAR PLUG-IN COMPONENTS

- Every section prewired and tested
- Interchangeable sections
- Simple, fast installation
- Minimal spare parts
- Easy to maintain

ULTRA SAFE

- Possibility of electrical shock eliminated
- No belts, chains, sprockets, etc...
- Ultra safe low voltage 24 volt DC
- Low noise level

ENERGY EFFICIENT

- Zones only run when product is present
- Extended motor life
- Uses 24 volt DC power
- Reduced operation cost
